Dixon, IL 61021

Dear person in charge:

In June 1995, I was presented with a proposed offer to purchase in regards to your widening of the Pecatonica Road. The last contact with personnel of this office left me with the impression that you would be back in contact with me.

Instead of contacting me, you filed a condemnation law suit, identified as Case No. 97 ED 1. What is your purpose in this?

There was never any suggestion that your offer of \$6990.00 was unacceptable. The only problem I remember was the admittedly unnecessary 25 foot square at the corner of Brick School Rd., which I was led to believe would be removed.

Title should not be a problem as there is a complete chain of Title transfers in the Winnebago County Recorder's Office, pertaining to the property in question.

There is no reason why this matter can not be completed without the unnecessary trappings and expense of a court room.

I think that I am entitled to the contact from this office which was promised nearly two years ago.

Sincerely,

  
Harriet P. Vance, Trustee  
Thousand Hills Trust
